

PARAT 

P R O D U C T C A T A L O G

75 YEARS OF PARAT - THE TOOL CASE.

From a small sewing workshop in a garage to the premium manufacturer of tool bags & cases and certified light. That is with a special pride that we claim to have been part of the hardware industry for a period of three quarters of a century now. During that time, we have set standards, implemented innovations and wowed our customers with high-quality products.

From one generation to the next, our tool cases have been reliable companions for craftspeople from all trades. Perfect craftsmanship requires perfect equipment - that needs to be perfectly protected and securely stowed away. With our tool bags and cases made from leather or functional and high-quality plastics or our nylon storage solutions, we provide the right organizer system for everyone's job.

Over decades, PARAT has now become an established top brand in the trade and crafts industry. We take this opportunity to say thank you for placing your trust and confidence in PARAT as a company and in our products and we assure you of our commitment to constantly create new innovations and to work hard to achieve further improvements in the high standard of our product development.

GERMAN ENGINEERING

A high standard of quality, comprehensive development processes, strictest quality monitoring, the exclusive use of top-quality materials and always ready to listen to our customers' needs and suggestions. This has always been PARAT's priority and will continue to be our ambition.

1945

08.10.1945 FOUNDATION

The brothers Martin and Heinz Schöenbach establish the leather goods factory "Lederwarenfabrik" Schöenbach OHG in Remscheid. Start-up of the manufacture of leather bags.

1980

1980 THE TOOL CASE

The first plastic tool cases are designed and manufactured. One of PARAT's major successes.

1993

1993 THE TABLE CART

The product portfolio is extended to include storage solutions for IT equipment.

2018 SERVICE DRIVE

New additional capacities for development and production provide an even better service and ensure the highest product quality.

2018

1967

THE BRAND NAME

A new tool bag with drawers was presented at the International Hardware Fair in Cologne. When Gertrud Schöenbach, Heinz Schöenbach's wife, first saw it, she spontaneously said upon opening the bag:

"Oh, a place for everything and everything ready at hand!" And this was the origin of the brand name PARAT, as the German word "parat" means "ready at hand" in English.

Then and now: The stylized S in PARAT's logo, which stands for the initial letter of the founders' family name, has stuck with our tool cases from the very beginning.

2001

2001 THE SAFETY LAMP

The product portfolio is extended to include safety lamps.

TOOL CASES.HIGHLIGHTS.*

SPECIFIC LOCK TYPES

PARAT tool cases are equipped as standard with lockable clamp locks. When choosing a model from the CLASSIC series, a combination lock or TSA LOCK™ is additionally available. For more information please see page 16.

ALUMINUM FRAME

The circumferential aluminum frame reinforces the tool case and is loadable up to 30 kg.

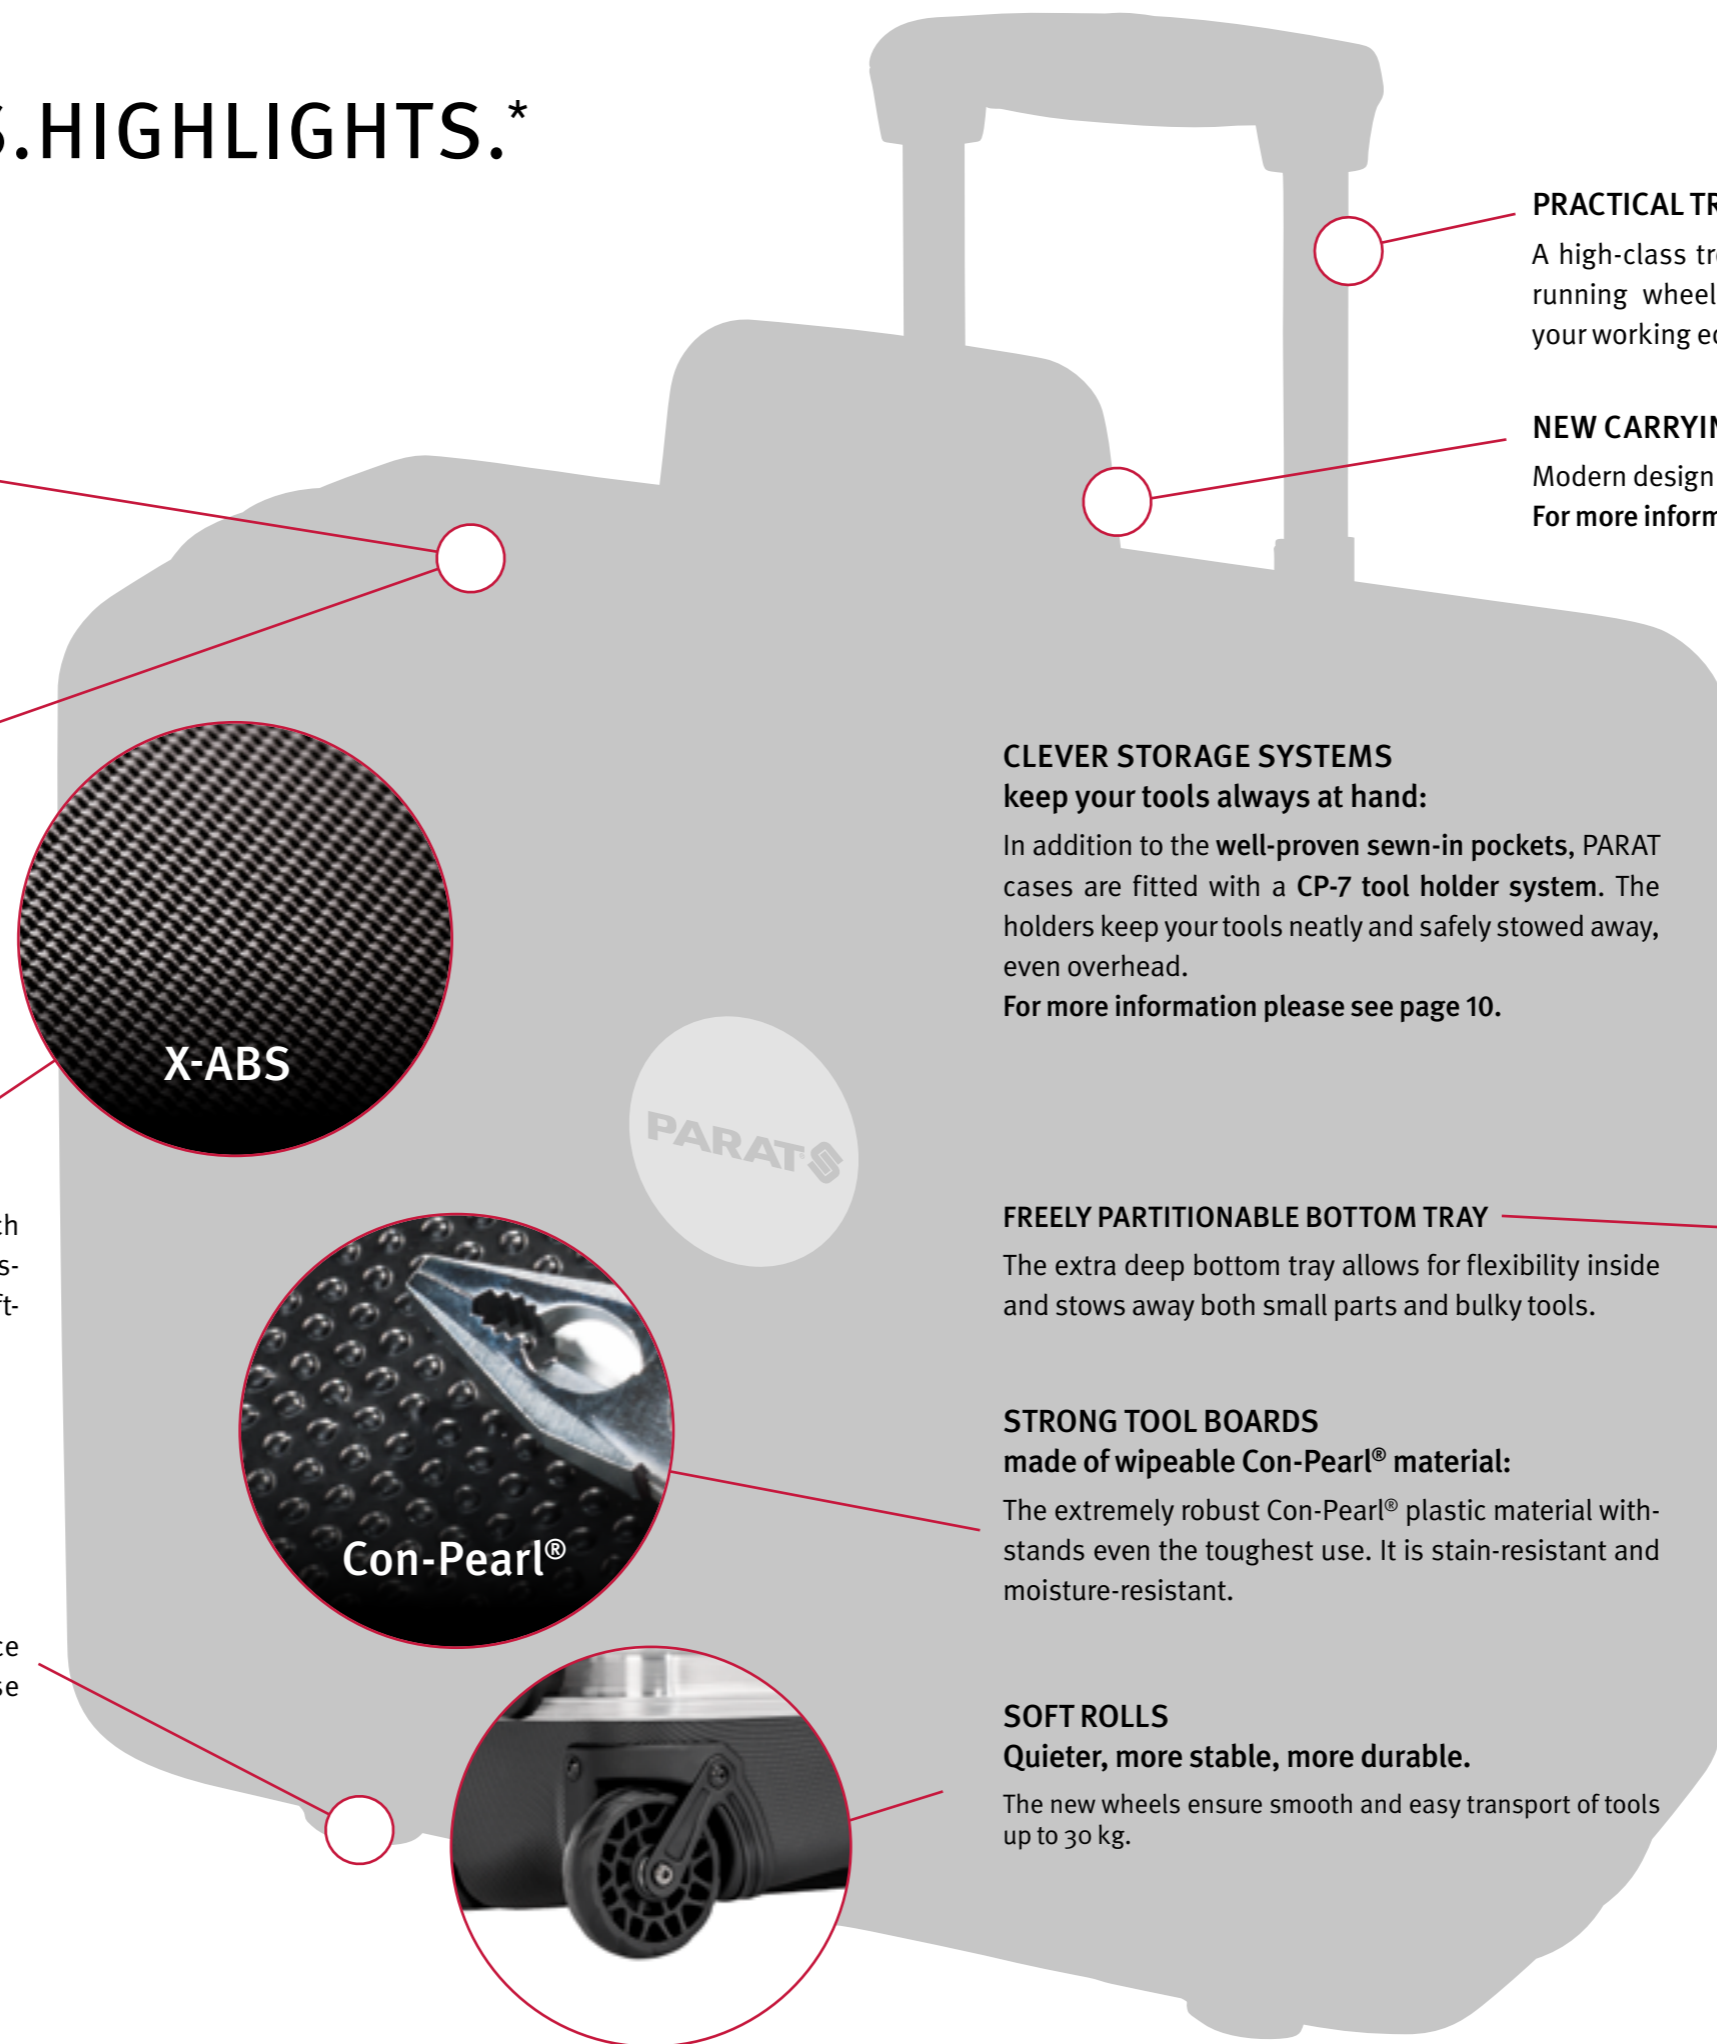

HARD-WEARING CASE SHELL

The case body is made of anti-slip X-ABS softtouch material. This ensures secure hold even during transport in vans or on uneven grounds. In addition, the soft-touch surface leaves no scratches on tiles, floors etc.

FLOOR GLIDERS

Integrated floor gliders protect both work surface from scratches and abrasions and the tool case itself from wear.

 Get more information, technical details, user videos and much more at www.werkzeugkoffer.de

PRACTICAL TROLLEY CASTORS

A high-class trolley system combined with smooth-running wheels ensures comfortable transport of your working equipment.

NEW CARRYING HANDLE

Modern design meets highest degree of functionality. For more information please see page 28.

CLEVER STORAGE SYSTEMS

keep your tools always at hand:

In addition to the well-proven sewn-in pockets, PARAT cases are fitted with a CP-7 tool holder system. The holders keep your tools neatly and safely stowed away, even overhead.

For more information please see page 10.

FREELY PARTITIONABLE BOTTOM TRAY

The extra deep bottom tray allows for flexibility inside and stows away both small parts and bulky tools.

STRONG TOOL BOARDS

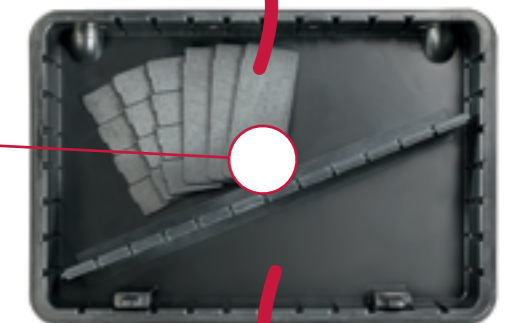

made of wipeable Con-Pearl® material:

The extremely robust Con-Pearl® plastic material withstands even the toughest use. It is stain-resistant and moisture-resistant.

SOFT ROLLS

Quieter, more stable, more durable.

The new wheels ensure smooth and easy transport of tools up to 30 kg.

*depending on model

PARAT SILVER.

531.000.171

A FINE PIECE FOR HARD WORK.

They are hard-wearing and ensure everything has its place: the premium tool cases from the SILVER product line. In addition, they impress with unbeatable value for money.

535.500.171

485.040.171

PRODUCT BENEFITS AT A GLANCE:

almost indestructible:

- best materials and high-quality workmanship guarantee extremely durable products
- SILVER aluminum frame withstands loads of up to 20 kg
- all cases come with an exclusive PARAT carrying handle

handy and stable:

- anti-slip X-ABS body guarantees stability during transport and work
- integrated floor gliders protect sensitive work surfaces from scratches or similar
- clamp locks protect your tools from unauthorized access

order comes first:

- thanks to sewn-in pockets, the tools needed are always ready to hand
- sturdy and wipeable tool boards made of Con-Pearl® material are extremely durable
- the right size for your requirements: depending on the model, the cases can accommodate up to 50 tools

PARAT's recommendation for the following trades:

- electronic industry
- service technicians
- sanitary/heating/air conditioning
- mechanical engineering/metalworking

order: well-proven and sturdy pockets keep your tools ready at hand and safely stowed away

durability: thanks to sturdy and wipeable tool boards made of Con-Pearl® material and an aluminum frame loadable up to 20 kg

premium sewn-in tool boards keep order

extra deep bottom tray 88 mm (depending on model)

CP-7 ORGANIZING SYSTEM.

A FINE PIECE FOR HARD WORK.

With this clever organizing system, time-consuming sorting and storing of your tools has come to an end: PARAT is the only manufacturer to offer the exclusive CP-7 tool holder system for special tool cases. The practical clamping effect ensures easy storage of devices without pushing them into extra sewn-in separators. Thanks to the CP-7 system, your tools can be flexibly plopped in at any position you want – and are safely stored between anti-slip board and high-class plastic bristles. Everything can be easily stowed away in no time and is quickly at hand again. And at the same time, your tools are always neatly and securely stowed – even if the case falls down or turns upside down.

PRODUCT BENEFITS AT A GLANCE:

- high-quality plastic bristles with strong clamping effect
- tools are securely held in place, even overhead
- tools are stowed away in no time and are quickly at hand again
- CP-7 tool holder exclusively available at PARAT

Get more information, technical details, user videos and much more at www.werkzeugkoffer.de

PARAT CLASSIC.

489.000.171

ONE TOOL CASE. MANY APPLICATIONS.

The premium tool cases from the CLASSIC product line are indispensable for professionals. A highly robust shell outside, a smart organizing system inside. Moreover, the cases boast many variations – this makes them suitable for almost any trade.

589.550.171

484.000.171

PRODUCT FEATURES AT A GLANCE:

sturdy and safe:

- loadable up to 30 kg thanks to the sturdy double aluminum frame
- anti-slip X-ABS body ensures safe grip on almost any floor
- clamp locks, combination locks or TSA LOCK™ protect from unauthorized access

keeps everything neat and tidy:

- the models from the CLASSIC series accommodate up to 71 tools
- everything at its place thanks to extra deep bottom tray (depending on model) and individually configurable pockets
- either CP-7 tool holders or sewn-in tool boards made of Con-Pearl® material ensure a tidy interior

clean and functional:

- secure grip thanks to our PARAT handle with softtouch surface, even when stained with oil, sweat and similar
- support bars with safety latch mechanism secure the case lid in the open position while working
- integrated floor gliders protect sensitive working surfaces and floors
- either CP-7 tool holders or sewn-in tool boards made of Con-Pearl® material ensure a tidy interior

PARAT's recommendation for the following trades: • electronic industry • service technicians
• sanitary/heating/air conditioning • mechanical engineering/metalworking • wood-working

PRODUCT BENEFITS AT A GLANCE:

practically organized:

- partially removable CP-7 tool board enable quick access to the tools needed
- integrated document compartments and pockets to store cables keep everything in perfect order
- a padded storage compartment guarantees shockproof transport of your laptop (up to 17")

safe miracle of space:

- the LAPTOOL case accommodates up to 40 tools
- aluminum frame inside lid and body guarantee stability and exact fit when closing the case
- lockable latch mechanism prevents unauthorized access to the case contents

back-friendly:

- integrated trolley system with two smooth-running wheels
- easy transport even on longer journeys and jobs
- ergonomic PARAT handle ensures fatigue-free transport even over several floors

PARAT's recommendation for the following trade:

- service technicians

INDIVIDUALITY AT ITS BEST.

FUNCTIONAL EQUIPMENT SOLUTIONS.

PARAT products not only impress with their inner values. Their appearance is also top-notch: individual in design, color and material. Moreover, we offer a huge variety of options for customization. Upon request, we integrate your business's logo on the case selected. And, honestly: what more could you ask for?

- ✓ branding
- ✓ innovative materials

TOOL BAGS.HIGHLIGHTS.*

SPECIFIC LOCK TYPES

The tool bags are fitted either with plug locks, ratchet locks or PARAT's own magnetic lock PARALOCK, depending on model and product line.

STURDY TOOL BOARDS MADE OF LIGHT CON-PEARL® MATERIAL

The extremely robust CON-PEARL® plastic withstands heavy-duty use. It is dirt-repellent and moisture-resistant.

UNBEATABLE RANGE OF VARIANTS

From traditional tool bags to innovative PARACURV® models, from back-friendly tool backpacks and handy roll-up cases to practical belt bags – PARAT offers the perfect organizing and transport solution for any job.

EXCLUSIVE PARAT CARRYING HANDLE

Modern design meets the highest degree of functionality. **Get more information on page 28.**

PRACTICAL TROLLEY CASTORS

ensure easy transport of your work equipment.

CLEVER ORGANIZING SYSTEMS KEEP YOUR TOOLS ALWAYS READY AT HAND

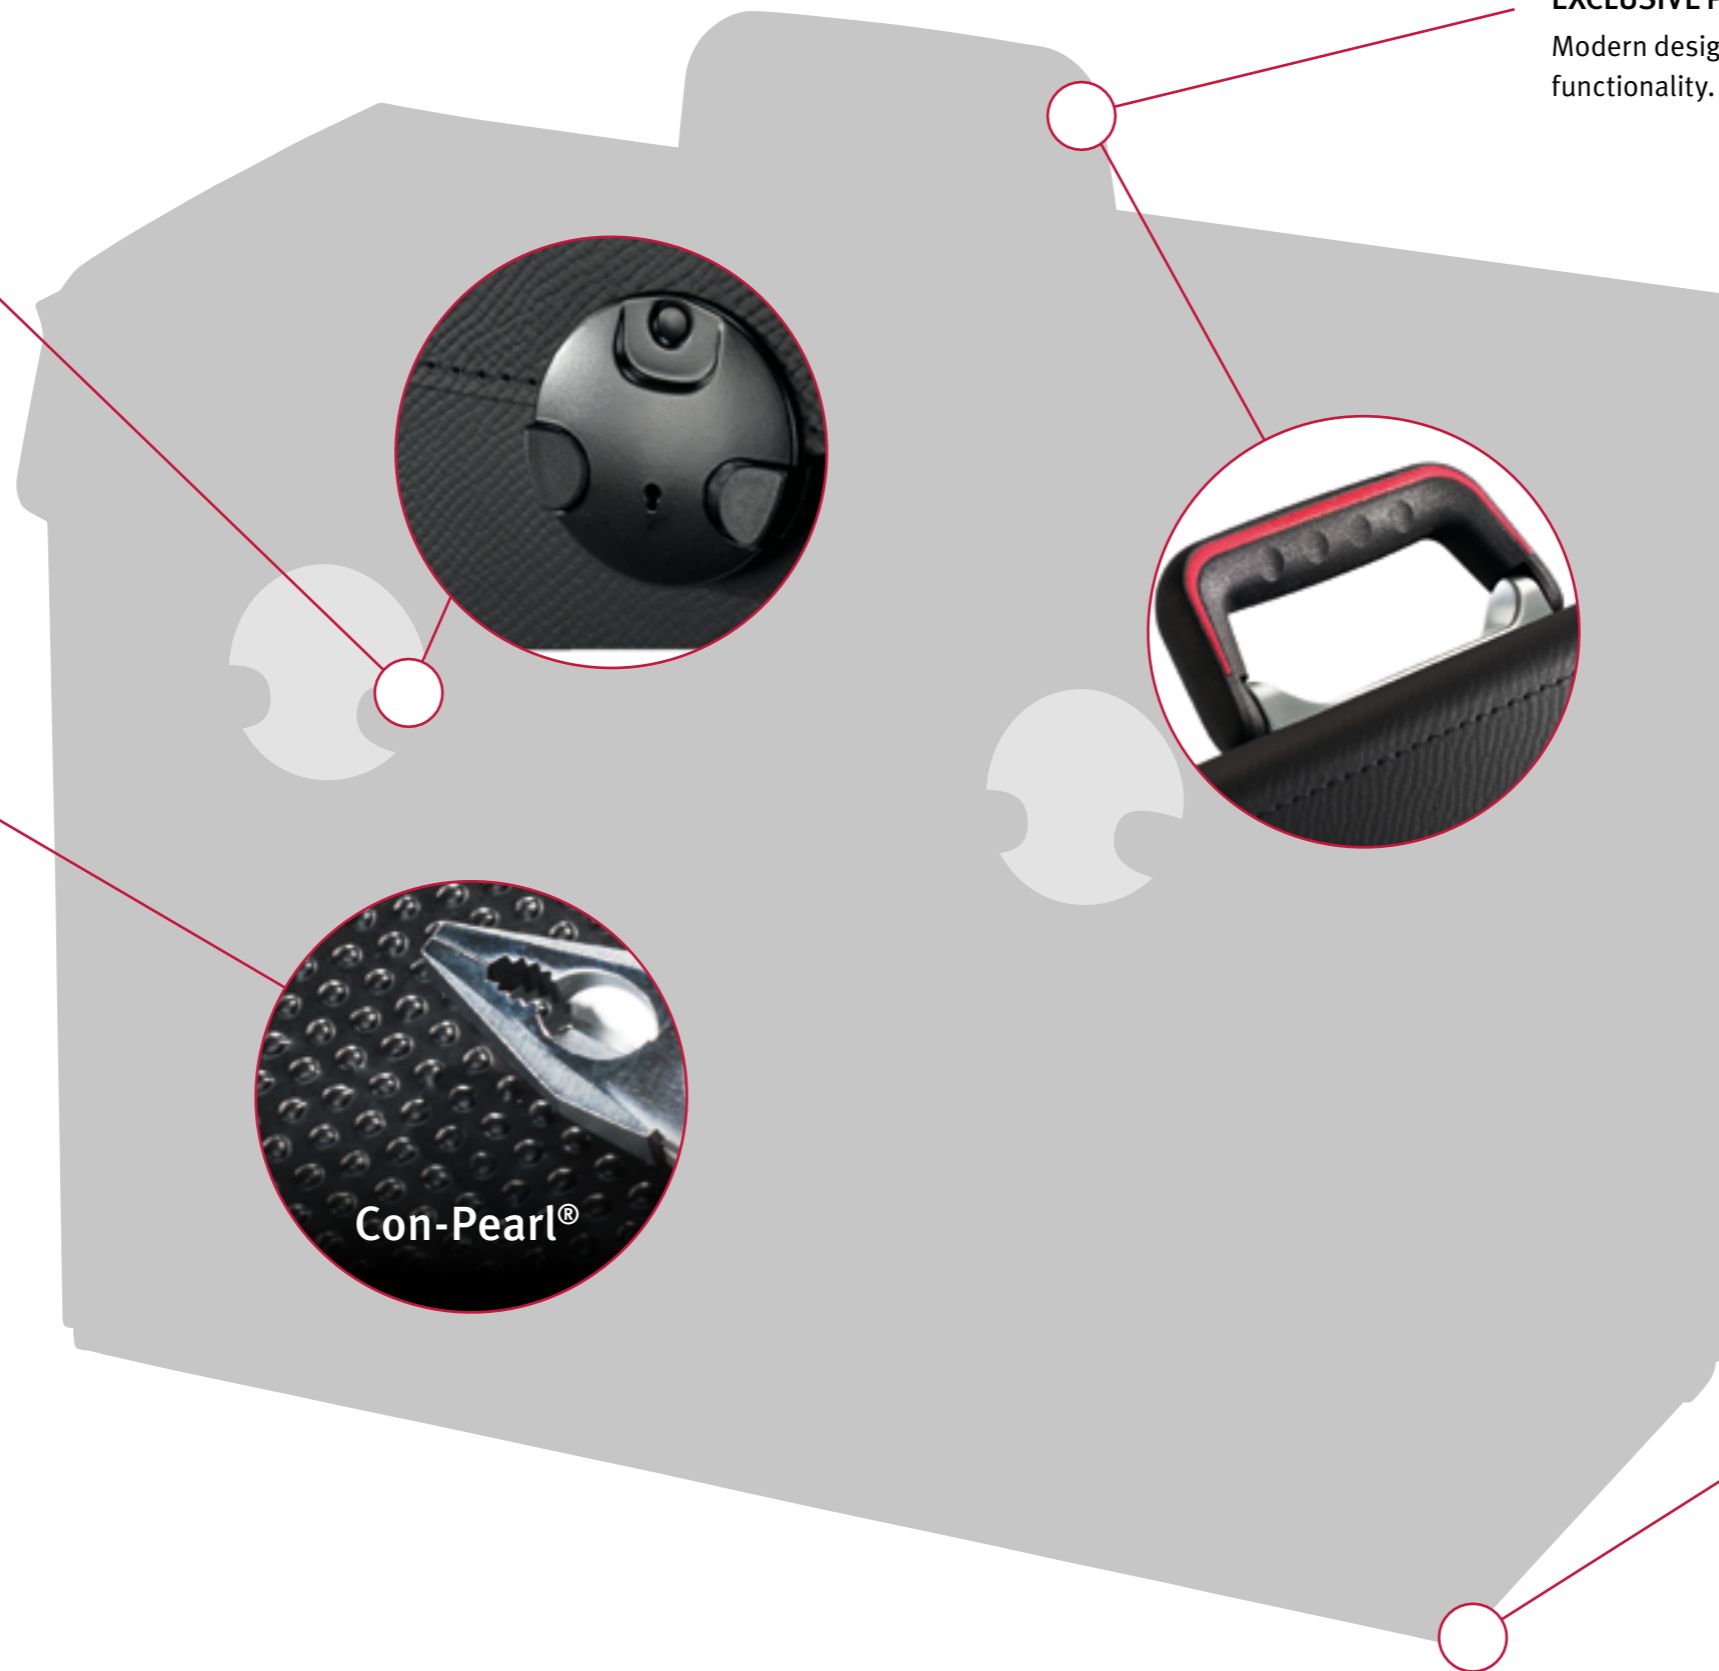

The premium tool bags by PARAT are available with sewn-in pockets, fixed or flexible rubber loops or PARAT's own CP-7 tool holder, depending on model. In addition, the TOP-LINE series features versatile bags with drawers.

STURDY, LONG-LASTING MATERIALS

The tool bags are made of extremely robust materials and, depending on model, reinforced with aluminum or plastic. The grained cowhide is extremely durable and resistant to moisture, while the sturdy industrial leather perfectly protects the bag's contents. The innovative CURV® material from the PARACURV® series is almost indestructible and therefore absolutely long-lasting.

FLOOR GLIDERS

Integrated floor gliders protect both working surfaces from scratches and abrasions and the tool bag itself from wear.

*depending on model

PARAT TOP-LINE.

14.000.581

LONG-ESTABLISHED ORGANIZERS IN PERFECTION.

Leather tool bags have always proved to be reliable organizers for the most different trades. They are an eye-catching highlight, practical, extremely robust and very versatile.

17.000.581

18.000.581

30.000.581

PRODUCT BENEFITS AT A GLANCE:

talented organizers:

- pockets with CP-7 tool holder and chisel holder (depending on model) provide neat order
- bags with drawers and removable tray organizer stow away both small parts and large tools
- semi-fold-out front and/or rear panels allow clear view of your tools and keep them close at hand for quick access

sturdy:

- extra strong and embossed leather withstands dirt, scratches and shocks
- TOP-LINE tool bags are reinforced with aluminum and/or plastic, depending on model
- integrated floor gliders protect working surfaces from unwanted damage or wear

safety for professionals:

- from small shoulder bag to rollable KingSize tool bag, the TOP-LINE models offer a huge variety of options, suitable for almost any trade
- premium tool bags are fitted either with plug locks or ratchet locks; the TOP-LINE PARALOCK bag comes with PARAT's own handy magnetic lock that can be easily operated using only one hand
- accessories such as shoulder straps are also available

PARAT's recommendation for the following trades: • electronic industry • service technicians
• sanitary/heating/air conditioning • mechanical engineering/metalworking • wood processing

PRODUCT BENEFITS AT A GLANCE:

innovative and clever:

- new materials such as CURV® & ABS plastics make the PARACURV® bag extra durable
- high-class workmanship guarantees a long-lasting product
- 60 % weight reduction

tidy workplace:

- individual organizing solutions with highly functional CP-7 tool holders

- the PARACURV® bags can accommodate 17 - 64 tools, depending on model
- the bags are 100 % resistant to any moisture

practical when on the go:

- integrated floor gliders protect both tool bag and sensitive surfaces
- the PARACURV® Multifunctional bag comes with a PARASNAP® Base lamp holder

PARAT's recommendation for the following trades: • electronic industry • service technicians • sanitary/heating/air conditioning • mechanical engineering/metalworking • wood processing

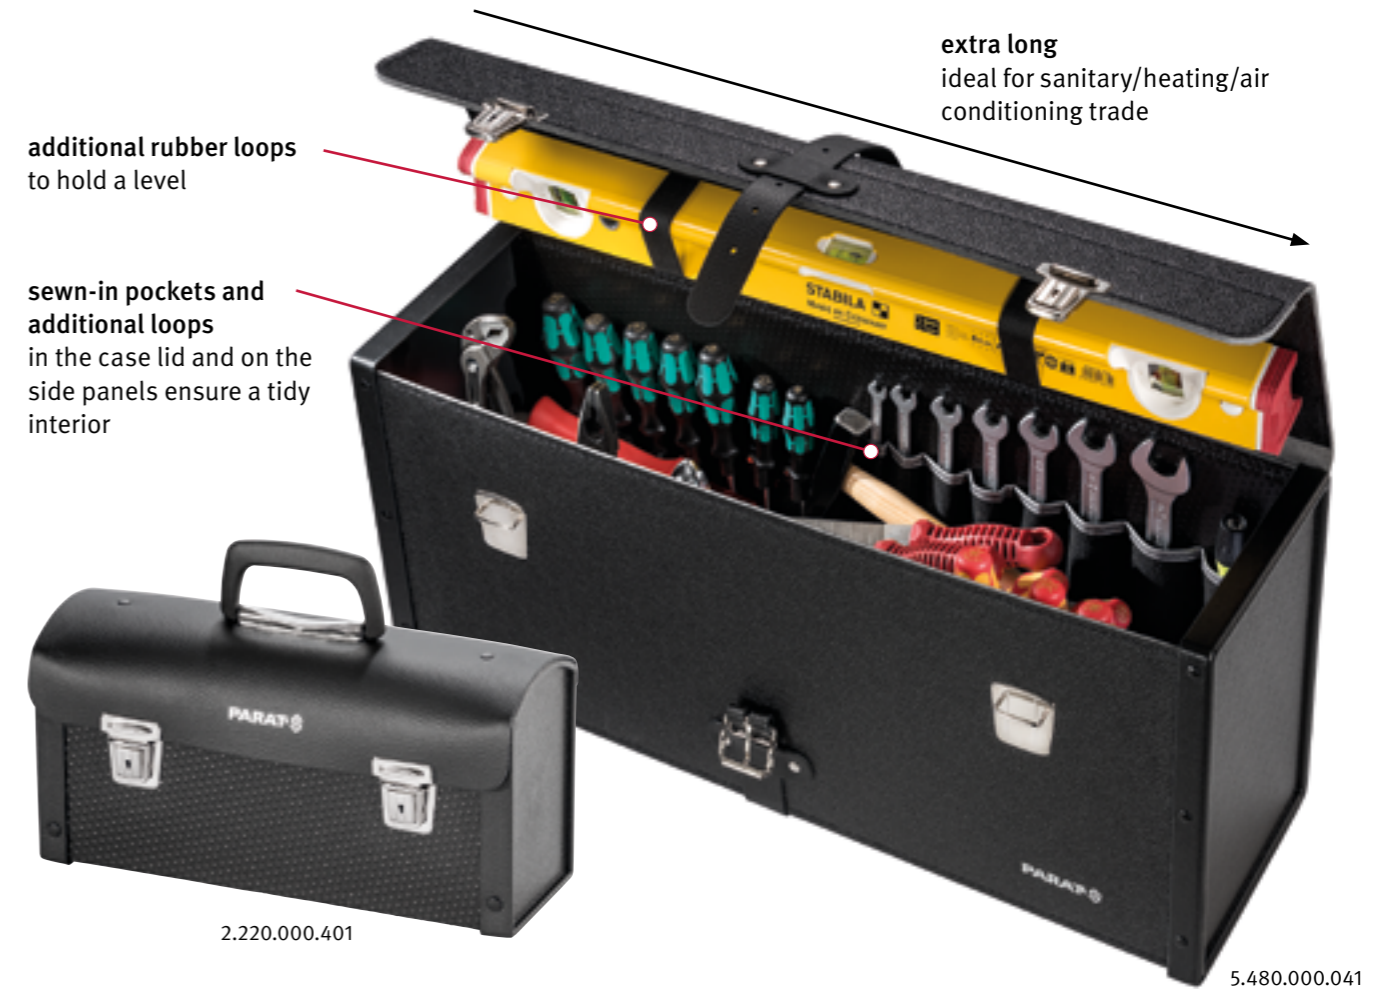

PARAT NEW CLASSIC.

2.228.000.401

SIMPLE, PRACTICAL, INGENIOUS.

The tool bags from the NEW CLASSIC series are experts for daily operations. Featuring a robust outer material and handy interior, they are the perfect companions for any trade.

PRODUCT BENEFITS AT A GLANCE:

ingeniously practical:

- semi-fold-out front and rear panels provide clear view
- quick access to your tools needed, at any time
- accommodates up to 40 tools, depending on model

strong and sturdy:

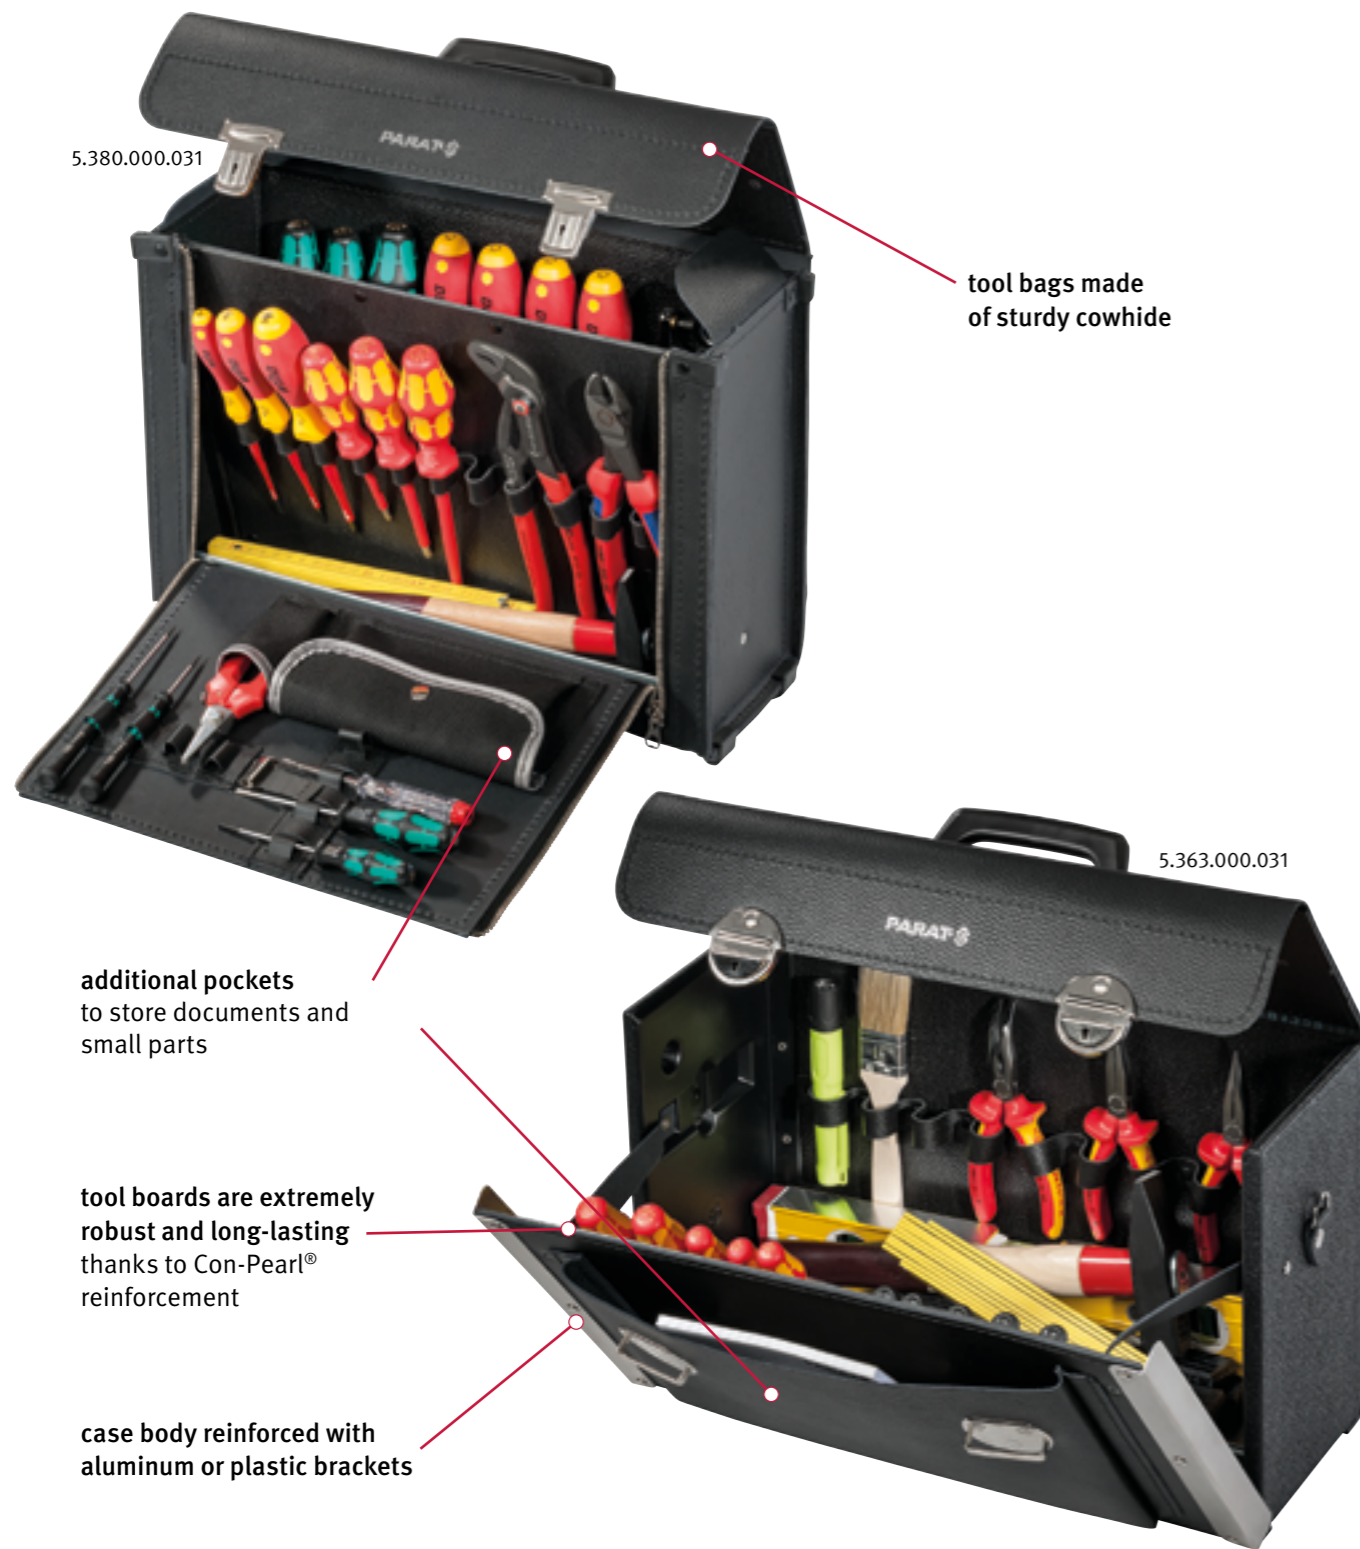

- robust, embossed cowhide, partly reinforced with Con-Pearl® and aluminum brackets
- resistant to scratches and shocks from outside

- integrated floor gliders protect even sensitive surfaces such as parquet floors and tiles

safe and ergonomic:

- sturdy handles and optional carrying straps ensure easy transport
- plug locks securely protect the bag's content
- cowhide keeps moisture out and protects your tools and measuring devices

PARAT's recommendation for the following trades: • electronic industry • service technicians
• sanitary/heating/air conditioning • mechanical engineering/metalworking • wood processing

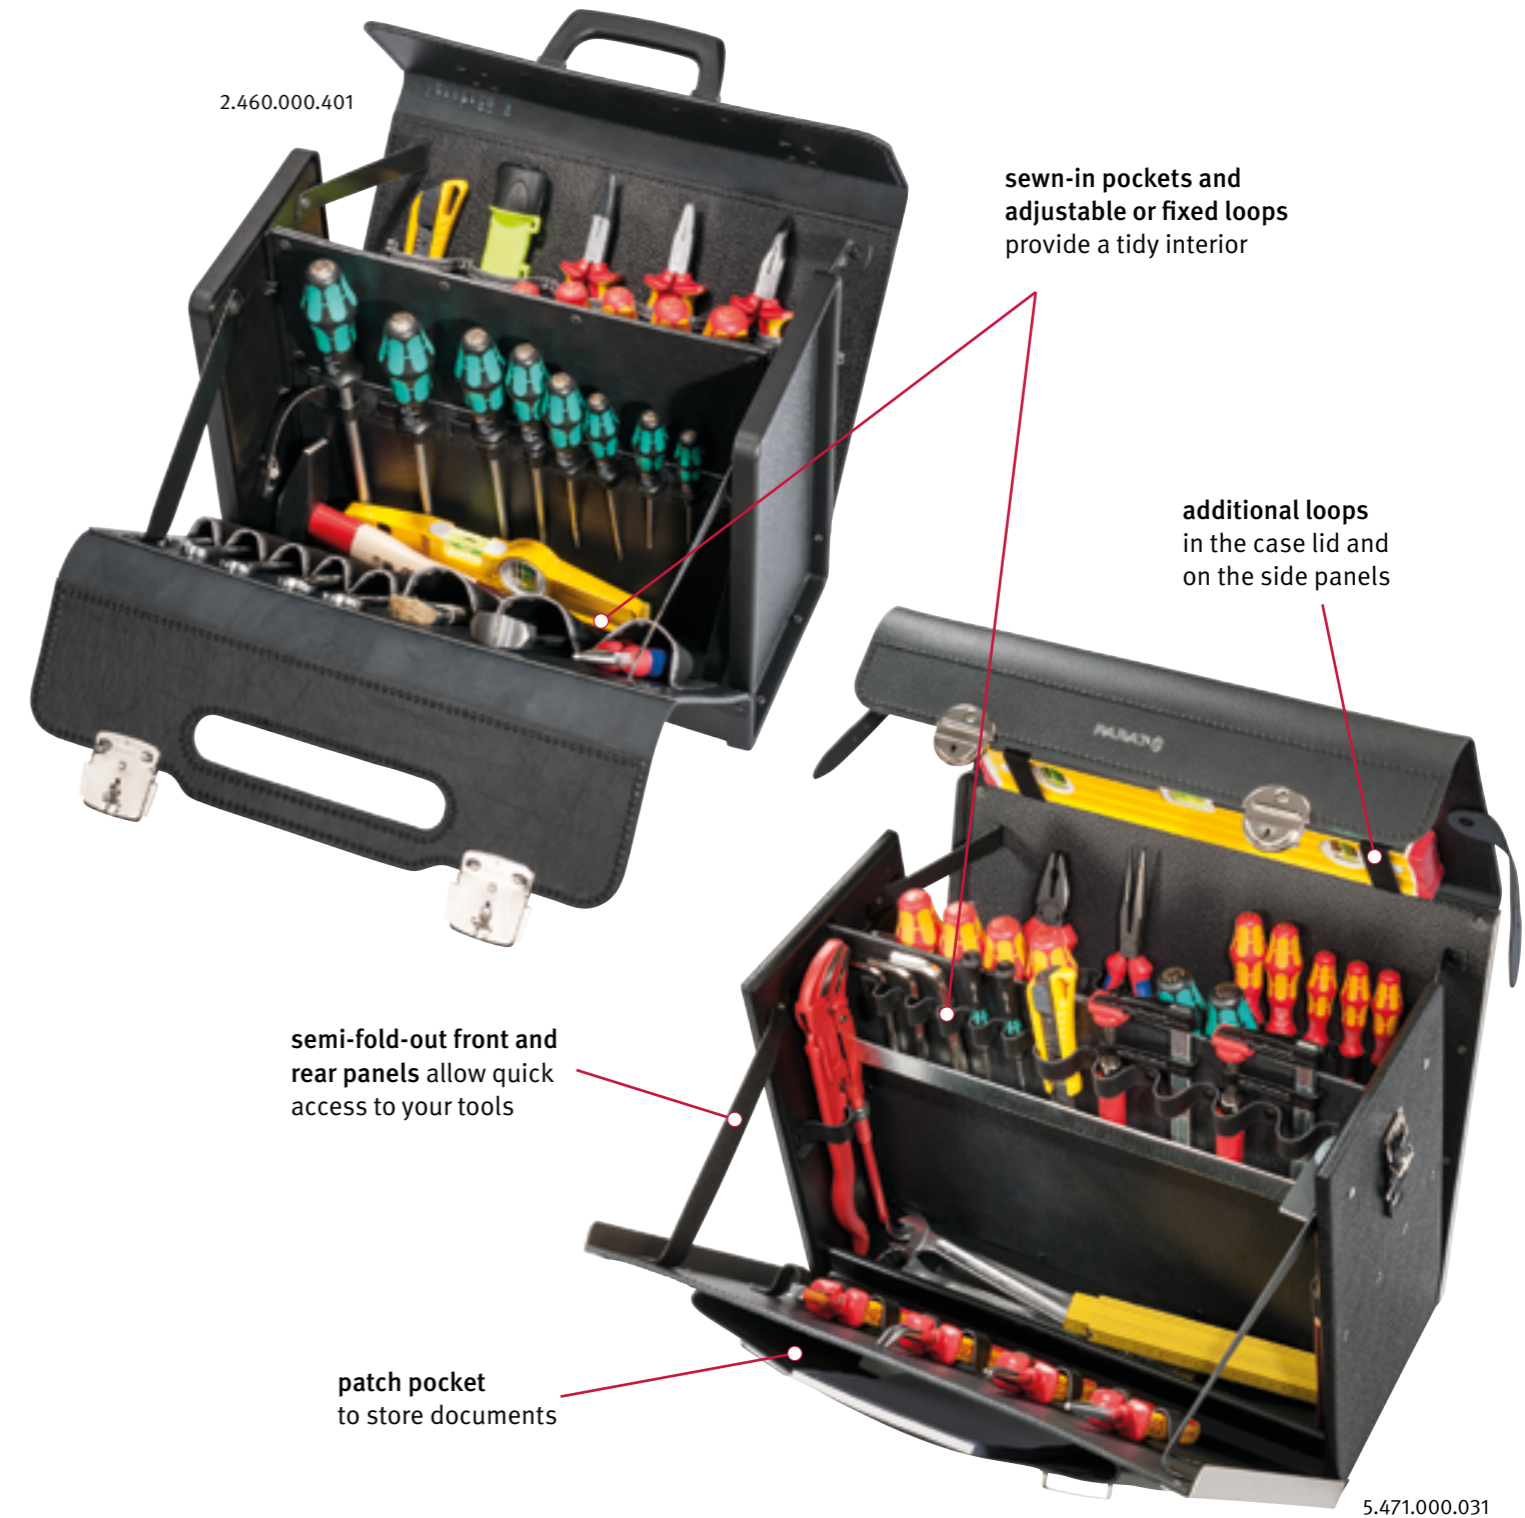

tool bags made of sturdy cowhide

PARAT X-TREME®.

COMPACT SAFETY LAMP FOR USE IN INDUSTRY AND TRADE.

PARAT X-TREME® models score with their high-level functionality: with a brightness of up to 170 lumens*, the user can easily dim the lamp's output from 100 to 15 % thanks to the integrated rear switch - with one hand only. Moreover, the safety lamps wow customers with well-proven PARAT quality standards as they are robust, watertight and dustproof. With their compact, practical design, they are recommended both for outdoor use, for building services, industry, maintenance and trade.

PARAT PARASNAP®.

certificated according to DIN EN 433:2008

INNOVATIVE LAMP MOUNTING SYSTEM.

An unbeatable combination of magnetic attraction and mechanical fastening. The mounting system, consisting of a base unit on the helmet or belt clip and the SNAP-IN mount, allows for flexible beam direction thanks to its smart angle-adjustable bracket. This enables quick mounting and removing of the lamp with the helmet on – and with just one hand.

Get more information, technical details, user videos and much more at www.lighting.parat.de

POINT OF PREMIUM.

PREMIUM PRODUCTS PERFECTLY DISPLAYED.

PARAT stands for quality, order, functionality, durability and high-class materials. With a specifically designed Point-of-Sale equipment, specialist dealers can benefit from PARAT as a manufacturer with strong image value and boost their sales. POS shelves, counter displays and advertising displays offer effective in-store support as they attract the end customers' attention and favorably influence purchasing decisions. Please find a complete range of POS products at a glance in our dealer area on the company's website www.werkzeugkoffer.de!

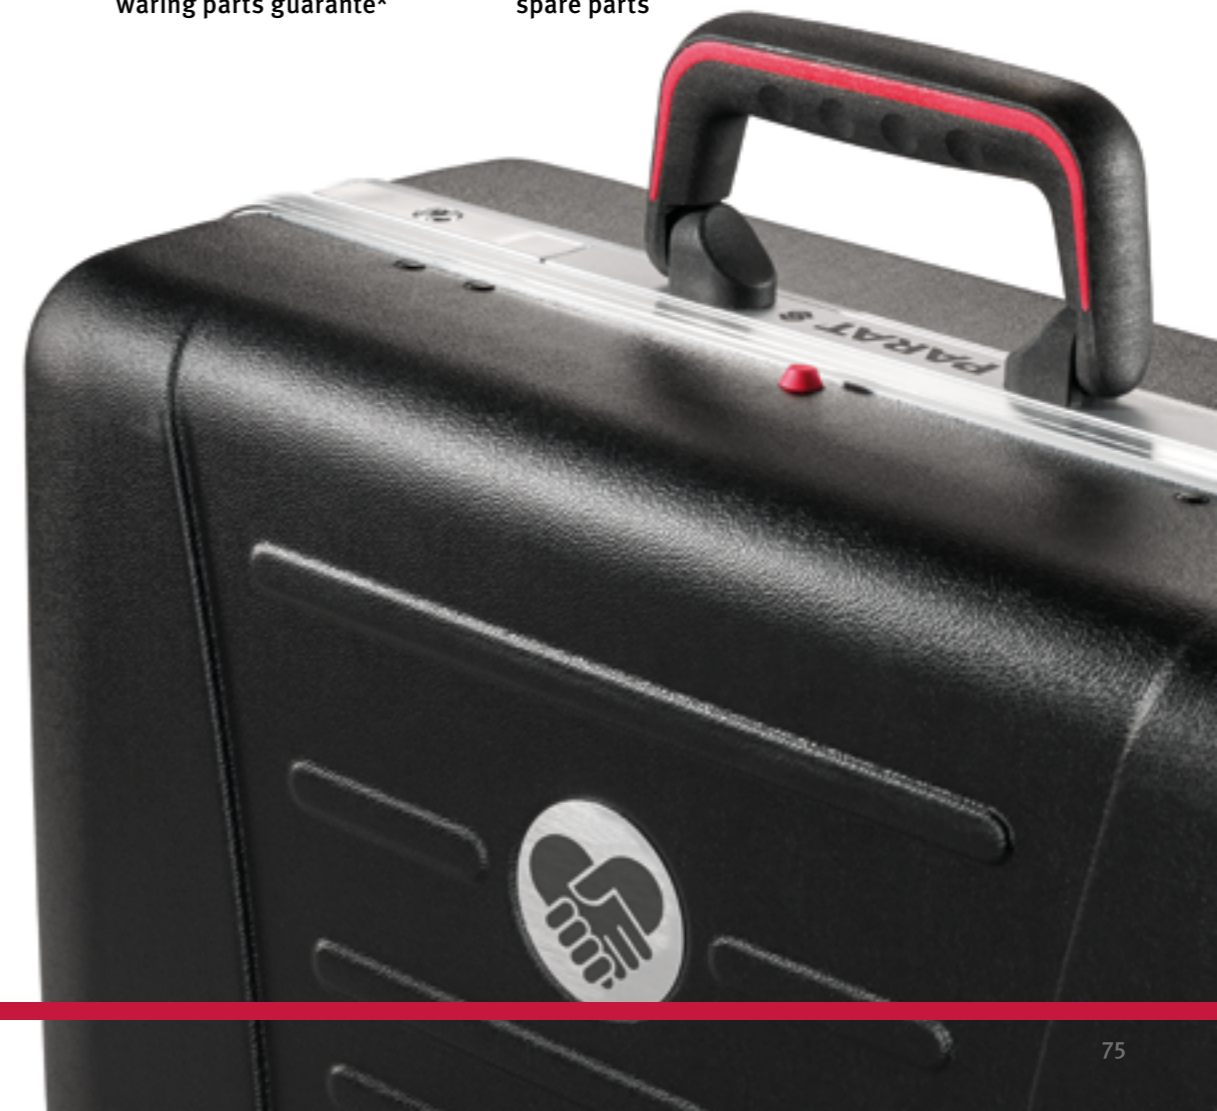

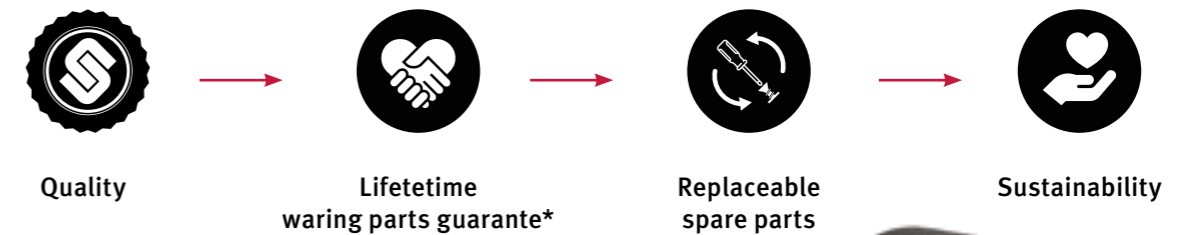

PREMIUM PRODUCTS. PREMIUM SERVICE.

The sustainability of our products is much more than a promise to us – we bring it to life every day.

We are passionate about creating practical, innovative and durable storage solutions for tools and we have demonstrated this for more than three generations now.

Defective or damaged components of our PARAT tool cases can be replaced quickly and easily as required and do not always call for a new product. Sustainability is also a key matter throughout PARAT's state-of-the-art production sites in Europe. This saves resources and reduces CO2 emissions when you look at the time-consuming and costly transportation for products e.g. from Asia. All our production facilities are certified according to the highest quality and energy standards.

Everything at the ready for 75 years, PARAT - the tool case.
